Re: Double Helix Corporation, Case # 25 - 40745

I am a listener and community member of KDHX radio. I advocate for a transfer to the community group that will maintain it as a non-commercial eclectic music broadcaster. Our region has more than two Christian stations, but no other station with the qualities and community support of KDHX.

I began listening in earnest a few years ago, and especially liked the knowledgeable deejays. They were forced out in a dispute. Donations dropped off. But fans are waiting for a return of our station to former format and will donate.

Please deny the sale of KDHX to a Christian broadcaster.

Sincerely,

Peggy Mueller
